Current Comment

Joke of the week—

"New York state was preparing today to deal gangland a sweeping blow, with the nullification on Oct. 1 of all the 185,000 pistol permits now in force," says the Associated Press. Contrary to the expectations of the state of New York, gangland is probably rubbing its hands in glee over the pending disarmament situation which will affect *only law abiding citizens.* Gangsters and hoodlums *do not* register their weapons, nor seek official permission to carry them. The astute administration of New York state has devised several silly gun laws, but this latest move, which was expected to make the underworld weep bitter tears, is the silliest of them all.

Day by day, in every way, the arguments of the free traders to the effect that the Smoot-Hawley tariff has stifled foreign trade and that it is responsible for the depression, are refuted by the facts. For example, figures furnished the other day by the department of commerce indicate that Uncle Sam had an unfavorable trade balance in August for the first time since 1926. In other words, the commodities exported during the month were valued at $165,000,000, while our imports totalled $165,000,000. How does this square with the argument of the free traders that our tariff is so high that foreign nations cannot sell to us? A big balance of trade, they have declared, would be fatal to Uncle Sam's foreign commerce. If this is true then the internationalists ought to be satisfied with the figures for August. For even in the months when our exports exceed our imports to a considerable degree there is no such favorable trade balance as the figures would indicate, on account of our "invisible exports" which include the money spent by tourists abroad and the money sent to the other continents by aliens in America sending a part of their earnings back to the folks at home.

It is difficult to analyze the significance of the unfavorable trade balance in August due to the fact that the nature of the imports are not at hand. If the greater part of the imports consist of raw materials, it might mean that business is about to take a turn for better in the United States. If they consist mostly of finished goods it would indicate that our tariff does not yet equalize the difference in the cost of production at home and abroad. But at any rate the figures ought to give the free traders a thrill even if the total figures are not as large as we might want them, because an unfavorable trade balance for Uncle Sam is the dream and desire of every internationalist.

Of course most of the argument as to the crippling of our foreign trade by the present tariff law is pure nonsense. As everybody knows, or should know, a great percentage of our imports come in duty free. And the figures for the calendar year 1930 show that our dutiable imports declined only 33 per cent while our imports coming in free declined 41 per cent. Now if the new tariff were crippling our trade, wouldn't the commodities on which a tariff is paid decline most? As a matter of fact our imports have fallen off in a considerable degree because our people are no longer, in hard times, buying the luxuries from abroad which they enjoyed in more prosperous times. And our exports have declined because the depression is world-wide and other nations are unable to buy so much from us, because of hard times. When times get better in the United States we will buy more luxuries from England and France and Germany, and will buy more raw materials from South America and the Orient. The way to get better times is certainly not to open our markets to cheap labor competition from Europe when ninety-five per cent of our market is at home.

As a matter of fact, while our foreign trade was declining 24.8 per cent in 1930 over 1929, Australia's foreign trade was falling more than 30 per cent, Brazil's more than 36 per cent, Canada's more than 27 per cent and Japan's, 25.9 per cent. And none of these countries are governed by the Smoot-Hawley tariff bill. It is to be remembered too that the decline is not so great as it appears on the surface. Our foreign trade is estimated in dollar value and not in tonnage. Dollar value of commodities has shrunk a great deal since the peak in 1929 so that the decrease in the actual tonnage of our foreign trade is not so great. This is especially true because of the great fall in prices of many less coffee in dollar value and actually 7.9 per cent of our chief imports, such as

(Continued on Page 2)

French Class Open To Tyros, Vets, In Night School Here

The French classes for adults at the Campbell Union high school will start Friday Oct. 2 at 7:15 in the evening.

There are two groups; the beginners and the advanced students. The beginners class will meet at the high school Tuesday evenings and the advanced class will meet Friday evenings, both at 7:15. All adults wishing to enter either class should be present Friday evening.

Registrations should be made at the high school office not later than Thursday Ost. 1. The classes are to be conducted by Mrs. A. Mazurova George. Mrs George had a very successful adult class last year and is anxious to duplicate it this year.

CONGRESSMAN A. M. FREE WILL TALK AT CONGL. CHURCH SUNDAY EVENING

This Sunday Congressman, Arthur M. Free will speak in the Congregational church at 7:30 p. m. His subject will be "How We Are Guarding Our Gates." Everyone interested in the country is asked to come. Questions will be allowed. The meeting will be led by Rev. J. H. Bennett who has an interesting program prepared.

HI P. T. A. TO STAGE "RELIEF" CARD PARTY AT ANNEX, FRIDAY, OCT. 9

Friday evening, Oct. 9, at the high schooi annex, the Campbell High P. T. A. will hold a public card party for the purpose of raising money with which to aid needy students. Conditions here, as elsewhere, indicate a growing need for financial assistance on the part of some youngsters, and it was believed by the association that a card party idea would go far towards securing the necessary money.

Mrs. Shank and Mrs. Hedegard are in charge of arrangement of tables, Mrs. Farley and Mrs. Best are in charge of refreshments, and Mrs. Hughes and Mrs. Knowles are in charge of prizes.

Everyone is urged to support this affair.

BONDON WATCH REPAIR SHOP NOW AT 24 NORTH CENTRAL AVE.

Mr. and Mrs. J. Bondon and son have moved from Harrison avenue to 24 North Central avenue, and have also moved their jewelry repair business to that location. Mr. Bondon formerly conducted his watch and jewelry repair business at Bernhardt's, and he says he will now be able to render much better service, due to the fact that someone will be on the job there practically all the time.

RAN AWAY FROM HOME IN SEARCH OF MOVIE CAREER, GUESS OF FATHER

Ambitious for a movie career, Mildred Kovak, 15, and her ten-year-old brother John disappeared from their home on Foote avenue yesterday afternoon. The girl's stepfather states that that would be the only reason for their leaving home. They left while Mr. and Mrs. Negovan were working at the canery. The youngsters took a suitcase full of clothing and a little money. A search is being made for them by the sheriff's office.

CONSIDERABLE PAVING TO BE DONE HERE WITHIN NEXT FEW WEEKS

Paving of Alice avenue is under way, and the street will be surfaced from curb to curb, according to R. H. Hyde, who secured the co-operation of property owners in his quest for the 18 inches of paving in the gutters and which the county does not supply. A little additional expense gets full paving for residents of that street.

Other paving being done in Campbell is as follows: North First street to Minna and South First from Rincon to Alice; Minna street from Central to Second and North Second street. North Third street is being graded, as is the extension of Campbell avenue. Joe McKinnon, supervisor of this district, is looking after the paving here, and deserves "a great big hand."

STITCHING CLUB HAS ENJOYABLE MEETING AT HOME OF PRESIDENT

Mrs. Hazen McQueen and Mrs. Anna Bachman were hostesses to the Ada Rebekah Stitching club at the McQueen home Thursday afternoon. This was the first meeting of the season and a large attendance was present to take part in a busy session. Many plans were started for projects to be carried out during the coming year. After the business session a social hour was enjoyed and delicious refreshments were served.

The next meeting of the club will be held Thursday afternoon Oct. 8 at the home of Mrs. Miriam Dunlap on Alice avenue. Mrs Elfrieda Anderson will assist Mrs. Dunlap.

Mr. and Mrs. Harry Voss will leave tomorrow for Santa Cruz to get Mr. Voss' mother, Mrs. Decoto, and from there they will motor to Nebraska to visit relatives. They expect to be gone about a month.

LEONARD WILLIS PLACES IN PRIMARY ATWATER-KENT AUDITION SING

Leonard Willis, well-known in Campbell, and who takes an active part in the work of the Methodist choir and other musical affairs, won second place in the men's division in the preliminary contest held last week in San Jose for the Atwater-Kent audition. The other three winners were Marjorie Thompson, first, women's division, Vesta Simmonds, second; Ignatius Pampolone, first in the men's division.

Willis' number was "The Pilgrim's Song, by Tschaikovsky.

This audition was sponsored by the Music Study club with Mrs. Robert K. Sword in charge. Mrs. Sword helped Stephen Merrill last year when he wa sstudying for the audition. Assisting her in this work are Mrs. Chester Tantau, Mrs. Donald Page, Mrs. Muriel Cox, Mrs. Floyd Parton and Miss Catherine Wood.

The two who are selected tonight at the California theater as winners will be heard over KPO next month in the state finals.

GRAMMAR P. T. A. WILL HOLD MEETING NEXT TUESDAY, OCTOBER 6

The Cambpell Union Grammar school Parent-Teachers association will holds its next meeting Tuesday Oct. 6. The president Mrs. S. N. Hedegard will preside over the meeting.

Reports from the executives of this division of the Community chest will be heard at this meeting. Also plans for taking care of the needy children will be made. Hot lunches at school for the children will be discussed. Problems for the coming season will be talked over and some plans put into action.

Walter Smily spent Sunday at the coast.

Seascouts Prove Master Mariners, 300 Mile Voyage

Recently four Campbell Sea Scouts, Elmer Sundquist, Lloyd Brown, Alfred Bee and Harry Bloom, returned from the longest, as well as the most thrilling cruise ever taken by any members of the Campbell Sea Scout group. On a Saturday night they left for San Francisco under the command of Elmer Sundquist in the 30-foot motor-sail boat which belongs to the local organization. The boys had been working on this boat all summer, putting in bunks for five, a complete galley, chart and first aid locker, and a place for a radio. The boat has a cabin covered with canvas and is thoroughly water tight and seaworthy. An additional sail was put on the boat so that it now has three sails.

The boys reached San Francisco Sunday morning, after traveling all night. All got a good sleep except those in charge of sailing the boat.

At eight o'clock they put out through the Golden Gate on a flood tide. This is the second time the Campbell Sea Scouts have gone out the Gate. The first time was two years ago when they sailed an open boat to Santa Cruz. The boys proceeded north toward Point Reyes. There was a heavy swell along the shore but the boat went up and down over the waves without shipping a drop of brine.

After rounding Point Reyes about five o'clock a heavy fog settled down on them, making it very difficult to see. The boat was taken in closer to shore, where those on watch could see the dim outline of the beach and the surf as it broke on the white sand. There was a gentle breeze blowing from the north so that if the motor had stopped they could have hoisted sail and beat out to sea until the fog lifted. At about eight o'clock the fog became so dense that it was impossible to make out the shore line. The boys then by careful and accurate calculations as to the speed of current, wind, and distance to the mouth of Tomales Bay, were able to set a compass course and sail solely at the command of the needle on their instrument. At the elapse of the estimated time they again turned towards the shore and before them appeared the two buoys which mark the entrance to the bay. This feat of skilled navigation would do credit to officers and men who had sailed the seas for many years. The ability to handle a boat with such uncanny accuracy is due to the fact that these boys have been carefully trained in all the ways of handling a boat under every kind of condition. These boys have spent many nights on the Bay and have covered hundreds of miles in their boats.

Because of a shallow bar across the mouth of Tomales Bay they deemed it unwise to attempt to go in at that time, so they dropped the hook and turned in for the

(Continued on Page 4)

News Review of Current Events the World Over

Great Britain Forced to Abandon the Gold Standard —Steel Cuts Wages—President's Appeal to the Legion.

By EDWARD W. PICKARD

GREAT BRITAIN started off the week with a bang that could be heard around the world. The national government, finding the gold reserves of the Bank of England were reduced to the danger point, the money borrowed from America and France exhausted and the withdrawals of foreign balances from the country continuing, adopted the evidently wise course of abandoning the gold standard at least temporarily.

Chancellor Snowden.

The situation had become so critical that this had to be done. In the words of the official announcement, "This decision will of course, not affect obligations of his majesty's government or of the Bank of England which are payable in foreign currencies."

On Monday the government's bill was rushed through both houses of parliament and approved by the king, and the gold standard act was thus suspended for six months. Whether the nation will go back to that standard depends on the course of events.

Though the government's decision was not announced until Sunday night, it was reached several days earlier and the rulers of America and France were warned. In the stock exchanges of both countries a check was put on short selling, so the evil effects were minimized and the bears held under curb. Of course the pound sterling dropped to low figures, but there was a decided recovery within a few hours. The London Stock Exchange and some continental houses were closed temporarily.

Chancellor Snowden, always courageous in difficulties, presented the case to the house of commons when the bill was up for passage and to the crowded benches and galleries he had no apologies to make. He cited the chief reasons for the action as follows:

The tying up of British funds in Germany, with its immediate effect on the London market.

Criticism abroad concerning the British government's expenditure in keeping the unemployed on the dole.

The adverse balance of trade, which he said "has been seized upon and exaggerated."

The new government's inability to command a united front in the house of commons.

The naval unrest, "exploited in foreign newspapers, causing general nervousness abroad."

Mr. Snowden explained that as a result of all this people began to take their possessions away from England, but added that the actual crisis started last May with the collapse of the chief banks in Australia.

J. P. Morgan, who was in London, gave one of his exceedingly rare interviews to the press.

"This step seems to me," he said, "to be the second necessary stage in the work of the national government, the first being the balancing of the budget. The completion of the government's work will be the restoration of trade in this country. This being the case, it seems to me to be a hopeful and not a discouraging event, and one which brings the great work of the government much nearer to accomplishment."

JAPAN'S action in seizing Mukden and other South Manchurian cities was causing a lot of trouble not only for China but also for the Japanese government. The aggressive course, it appears, was taken by the war office without awaiting the approval of the government at Tokyo, and the cabinet was badly split. War Minister Minami aggravated this rupture by sending reinforcements to Manchuria from the Corean garrison on his own initiative. Foreign Minister Kijuro Shidehara was especially rolled, for he hoped to settle the quarrel with China by peaceful negotiations, and apparently Premier Wakatsuki was of the same mind.

Shidehara.

On demand of Alfred Sze, Chinese delegate to the League of Nations, a special meeting of the league council was called to hear Nanking's protest against the action of Japan, and a mild resolution was adopted. Mr. Sze charged that Japanese troops, without provocation, opened rifle and artillery fire upon Chinese soldiers at Mukden, bombarded the arsenal and barracks, set fire to the ammunition depot and disarmed Chinese troops in other cities. He asked that the league act to prevent further development of the situation and determine the amounts and character of reparations due China.

Kenkichi Yoshizawa, Japanese spokesman, announced to the council that Japan would respect in every way the stipulations of the league covenant and of the Kellogg pact in her policy toward Manchuria.

T. V. Soong, Chinese minister of finance, proposed a Sino-Japanese commission to try to solve the Manchurian problem and this suited Tokyo, but it was rejected flatly by Nanking. President Chiang Kai-shek in a message to the Chinese people, declared that "if the League of Nations and the Kellogg pact signatories fail to uphold justice between China and Japan, the national government is prepared for a final and supreme struggle. I shall lead the army and the entire nation in the fight for the preservation of our race. I shall go to the front and, if necessary, fall with other patriots."

The Canton rebel government ceased its hostile campaign against the National regime in order that all China might unite to combat Japan.

Soviet Russia took a hand in the melee, making formal protest to Japan against the latter's course in taking steps in Manchuria without first notifying Moscow. Russia says her interests in Manchuria are as large as those of Japan. The tone of the Moscow press was warlike.

On Wednesday Secretary of State Stimson sent notes to both Japan and China urging them to cease hostilities, and the League of Nations council cabled to Tokyo asking Japan to permit a neutral commission investigate the situation.

PRESIDENT HOOVER, deciding suddenly to appear before the convention of the American Legion, went to Detroit Monday and delivered a stirring address to some 16,000 Legionnaires and their families. He was warmly received and listened to with respect, and it was evident that his main purpose, the heading off of demands by the organization for additional bonus loans at this time, had been accomplished.

President Hoover.

Mr. Hoover made his message brief, and he dealt with no other subject than that which took him there. In effect, the President made a request that the Legionnaires should not press for additional loans under the veterans' adjusted compensation act. There had been a concerted movement within the Legion to have this convention pass a resolution demanding that veterans be permitted to borrow the full amount of their adjusted compensation certificates, instead of only half, as at present.

But the President shrewdly avoided making a direct plea. He said it was not fitting that the President of the United States should plead with them in a test of patriotism.

He was "pointing out the path of service in this nation," Mr. Hoover said he left the choice with the Legion.

The President outlined the financial plight of the country, and said he was convinced that the Legion would seek to add no farther burden.

When the President finished and had left the hall with cries of "We want beer!" ringing behind him, he was driven directly back to his special train which left at once for Washington.

After a warm debate the Legion adopted a resolution condemning the Eighteenth amendment and calling on congress to hold a nation-wide referendum on the repeal or modification of the dry laws. The convention also voted not to press for full payment of compensation certificates at this time.

Henry L. Stevens, Jr., of Warsaw, N. C., was elected national commander.

DIRECTORS of the United States Steel corporation, the Bethlehem Steel corporation and the Youngstown Sheet and Tube company announced that wage rates of their employees would be reduced about 10 per cent, effective October 1. At the same time the General Motors corporation announced a readjustment of salaries, the cuts ranging from 10 to 20 per cent; and the United States Rubber company gave out word that its entire organization would go on a five-day week, without change in the hourly scale of wages but involving a reduction of one-eleventh in salaries.

These readjustments by huge corporations were not unexpected but were greatly regretted by the Hoover administration. The wage cuts were bitterly resented by organized labor whose officials feared they would lead to reductions all along the line. As a matter of fact, several other big concerns did put in effect similar cuts.

PLANS for a general armaments construction holiday go on apace. The League of Nations armaments committee invited the United States to participate in its discussions of this subject in a consultative capacity and Uncle Sam gladly accepted. Then Secretary of State Stimson announced that Hugh R. Wilson, American minister to Switzerland, had been instructed to inform the committee that the United States is favorably inclined toward the idea of an international building holiday for land, air and naval armaments. Mr. Wilson will report to Washington on any plan of action advanced and will then receive further instructions from the administration.

Another hopeful sign is the fact that Premier Laval of France has accepted an invitation from President Hoover to visit Washington. It is expected he will come some time in October.

JOUETT SHOUSE, chairman of the executive committee of the Democratic national committee, is one of those who believe it is not always wise to let sleeping dogs lie. He knows his party is bound to come up against the prohibition question before or during the next national convention, and he consequently has stirred up the animals by publishing "some platform suggestions" in the organ of the Woman's National Democratic club.

Jouett Shouse

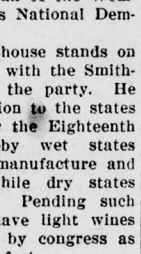
In general Mr. Shouse stands on the liquor question with the Smith-Raskob faction of the party. He favors the submission to the states of a substitute for the Eighteenth amendment whereby wet states could restore the manufacture and sale of liquor, while dry states could remain dry. Pending such action he would have light wines and beer legalized by congress as nonintoxicating in fact.

His suggested plank on agriculture calls for the repeal of the federal farm board legislation, which he terms a costly failure, and he advocates something in the line of a surplus control device employing the equalization fee as a means of assessing the farmers instead of the taxpayers generally for the cost of stabilization.

The discussion which Mr. Shouse's article already has aroused is welcome to National Chairman Raskob, who is openly seeking to crystallize party views on the major issues.

DESPITE the President's determination to keep down governmental expenditures, it is revealed now that the budget estimates for the 1933 fiscal year which have just been submitted to him call for expenditures that would break all records since the days of the World war. It was stated authoritatively that the estimates top the estimated 1932 expenditures by almost a quarter of a billion dollars. Mr. Hoover, it was said, was having a hard time deciding just where to use the pruning knife, but it seemed certain that he would use it effectively, for he has virtually pledged himself to hold down the cost of government in 1933.

WASHINGTON officialdom was surprised and scarcely pleased to learn that Senor Don Manuel Tellez, ambassador from Mexico and for two years dean of the diplomatic corps, had been recalled to Mexico City, where, it was said, he would be given a post in the foreign office or possibly sent to some European capital. He is to be succeeded by Dr. Puig Casauranc.



Manuel Tellez

Senor Tellez has been regarded by his colleagues in the diplomatic corps as successful in conducting diplomatic representations before this government. He came to Washington in 1920 as first secretary, shortly afterward became charge d'affaires upon the departure of Ambassador Bonillas, and remained in that capacity until 1925, when he was appointed ambassador by President Calles.

MOST noteworthy among the deaths of the week was that of Dr. David Starr Jordan, venerable chancellor emeritus of Stanford university. He passed away at his campus home after a stroke of paralysis, at the age of eighty years. Doctor Jordan had achieved distinction as a scientist, an educator and a philosopher, and for many years had been an advocate of world peace. In the field of science he was best known as an ichthyologist.

(©, 1931, Western Newspaper Union.)

Model Shows What Happens Inside Your Telephone

THIS DEVICE DEMONSTRATES A PRINCIPLE WHICH OPERATES EVERY TIME YOU MAKE A CALL

The round objects in the model above are graphite-coated rubber balls, which represent the carbon granules in the ordinary telephone transmitter. When the plunger is pushed in, the balls are compressed just as the transmitter diaphragm, vibrating to voice waves, is thought to compress the carbon granules.

At the left are photographs showing some of the rubber balls at rest and (in right circle) under pressure. Note in the photograph at the right how the area of their surface contact with one another is increased when the balls are pushed together under pressure from the plunger.

Just behind the diaphragm of your telephone, which vibrates to the sound waves of your voice as you speak into the transmitter, is a little chamber holding some 10,000 tiny granules of crushed and roasted coal. As the diaphragm moves back and forth, the granules are agitated, and the electrical current which flows through them becomes a faithful copy of the original sound waves of your voice. In this large model, rubber balls coated with graphite represent the tiny carbon granules, and the compression and expansion of the balls, increasing and decreasing the area of their contact with one another as the plunger is moved in and out, is strikingly similar to what happens to the granules when the transmitter diaphragm moves in and out. Just what takes place among these granules is a problem engaging scientists of Bell Telephone Laboratories who are carrying on fundamental studies of the telephone transmitter.

CURRENT COMMENT

(Continued from Page 1)

rubber, coffee and silk, and of our chief exports, as cotton.

For example, in 1930 we imported 58.3 per cent less crude rubber in dollar value but only 3.8 per cent in tonnage; 38.5 per cent less silk in dollar value but only 15.3 less in volume; 30.8 per cent more in tonnage. We exported 35.6 per cent less cotton in dollar value but only 12.3 per cent in tonnage, and so on. As a matter of fact, then, figuring on the basis of actual goods bought and sold abroad the decrease due to the depression is not as great as might be imagined by glancing at the reports. And certainly nobody blames the new tariff law for the world-wide decline in prices.

REAR ADMIRAL RICHARD E. Byrd announced in Boston that he was planning another expedition to the South pole. He said that detailed preparations for this trip already have been made, but that he was not ready to give out the plans yet because there is still much scientific work to be done on the data collected by the former expedition.

Rear Admiral Byrd

"As is my custom," he said, "there will be no public campaign for the raising of funds for this expedition. In the past, friends of mine who are interested in the work have contributed the bulk of the money. In this particular case, they will contribute probably all of it."

FOREIGN MINISTER JULIUS Curtius startled the League of Nations and especially the French the other day by a speech in which he said that Germany was forced to demand an entire new deal on reparations and also would not be satisfied with anything less than absolute parity in armaments, his remarks concerning the latter point being aimed directly at France, Poland and the little entente. Later he found occasion at a journalists' luncheon to mollify the French, saying: "We are firmly decided to pursue collaboration between our two countries. It is only in this way and with the aid of the league that we can hope to master the difficulties and reach the goal set by M. Briand in his moving and impressive words — the complete suppression of war."

Mexico, just admitted to the league, had expected to be given a seat in the council, but was disappointed. Panama and China were elected to the council to take the places of Venezuela and Persia, respectively. There were reports in Geneva that the United States would be seriously displeased if Mexico were elevated to the council so soon, and that the "big shots" gave up the idea in order to keep President Hoover in good humor.

FINDING he could not complete his investigations in the Philippines in the time originally set, Secretary of War Patrick J. Hurley, put off for one week his departure for the United States and went on with the work with refreshing thoroughness. Leaders of the Filipinos who demand immediate independence are not wholly pleased with Mr. Hurley, seeming to be convinced he will report against their cause. In the island senate he was bitterly attacked by two senators, despite the pleas of Sergio Osmena, president pro tempore of the senate, that they reserve their criticisms. Mr. Hurley, far from being offended, said such incidents gave him a clearer insight into conditions.

Sec'y Hurley

Osmena and Manuel Roxas, speaker of the insular house, stated that plans had been made for the sending of an independence commission to Washington this fall. The delegates will seek a round-table conference and may consent to a compromise settlement of the question.

LATE reports from Belize, British Honduras, are that the deaths resulting from the hurricane that smashed that city may reach the shocking total of 1,400, or nearly one in ten of the entire population. Hundreds of the victims were burned in huge pyres without attempt at identification, because of the danger of pestilence. Other hundreds were swept out to sea by the great tidal wave that accompanied the storm.

Relief measures for the survivors were promptly carried out by the Honduran authorities, the American Red Cross, the Salvation Army, and the American naval forces in the vicinity.

A. Emskamp of Seattle was visiting friends and transacting business in this village last week.

Billy Robinson, of the Berkeley police force was a recent visitor with his parents, Mr. and Mrs. T. A. Robinson.

About 160 persons attended the chicken dinner held at the Congregational church last Wednesday evening.

Mr. and Mrs. Charles Taska, enroute to Bremerton, Wash., stopped last Tuesday evening to visit with Mr. and Mrs. Harry D. Evans.

Mrs. Donald Lent of Oakland is visiting her mother, Mrs. Paul Marston, for a few days.

Stephen Merrill has entered San Jose State college and is studying music.

Frank Haliwell, proprietor of Haliwell's Quality Store, today installed a natty new sign over the entrance to his popular shop.

Mrs. Ethan Lanphear of Saratoga was visiting her aunt, Miss Sadie Maxon, last Thursday.

Miss Abbie Morgan left last Tuesday for Davis where she will visit friends for a time.

Mrs. Ernest Snow of Alameda is visiting friends in Campbell today.

Mrs. Maynard Knopf and children are spending a month with her parents, Mr. and Mrs. T. Kornsvedt, near King City.

Mrs. Harry White returned this morning from a several days' vacation at Santa Cruz.

Mr. and Mrs. Lynn Smith and children of Oakland were recent visitors at the W. H. Gullick home.

Mr. and Mrs. Lloyd Cooke and Miss Mildred Cooke motored to San Francisco Sunday to visit friends.

Dr. F. R. Anderson motored to Oakland today to transact business.

Mrs. Earl Young, accompanied by Miss Bessie McKenzie, have returned from a week's vacation in Los Angeles.

Mrs. B. N. Young, who has been ill for some time, is recovering and able to be about.

This evening at the community hall the Kiwanians will entertain their ladies at a 6:30 dinner and program. This is the last of these affairs for the summer.

The Campbell baseball nine was defeated 20-4 by the Santa Clara Merchants at the local diamond Sunday.

The local firemen were called out last week to extinguish a small blaze in a shed back of the T. A. Robinson home.

H. M. Shadle has completed the moving of his drug business from Bernhardt's market to the new location next door to the Taste Good bakery. Mr. Shadle is prepared to serve his customers there, although he is not all through arranging the new place.

Richard Fletcher, who for the past several months had been employed at the Dunlap & Smily garage, left Saturday afternoon for Los Angeles where he will work this winter. Mr. and Mrs. Phillip Fletcher motored him to Porterville, where he visited enroute.

The Ada Rebekah lodge is sponsoring a card party Saturday evening, Oct. 3, at the Odd Fellows hall.

Arthur Rice is slowly improving at the County hospital. He was recently and seriously injured in an automobile crash.

THE NEIGHBORHOOD BANK AMERICAN TRUST COMPANY SINCE 1854

The sure way to build up a fund for the future is to decide on a definite amount to be saved regularly.

Successful savers start at the source.

They take a certain portion of every month's pay and put it in the bank. The interest it earns helps it to grow.

Getting ahead is largely a matter of getting started saving. The important thing is to begin. Action wins. Start today.

One of our offices is convenient to you.

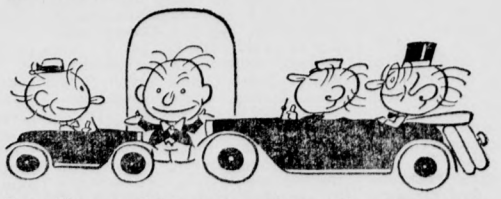
. . . isn't it because the people who *buy* tires, rather than those who sell them, definitely have settled the question as to whose tires are the best values?



Small cars, big cars—they all wear more Goodyear Tires than any other kind. The measure of value in a product may accurately be gauged by its volume of sales. You owe it to yourself to know the reasons why Goodyear Tires lead all others so greatly. We can show you!

NOTICE OF TRUSTEE'S SALE

WHEREAS, WILLIAM C. MYSELL and EDITH S. MYSELL (his wife), did on November 3, 1926, make and execute to MERCANTILE SECURITIES COMPANY OF CALIFORNIA (now AMERICAN NATIONAL COMPANY), a corporation, as Trustee, for the benefit of MERCANTILE TRUST COMPANY OF CALIFORNIA (now AMERICAN TRUST COMPANY), a corporation, a deed of trust to secure the payment to said American Trust Company of that certain promissory note of even date therewith, for the principal sum of Twenty thousand and no|100 ($20,000.00) Dollars, together with interest thereon at the rate of 7 per cent per annum, which said deed of trust was thereafter and on December 4, 1926, recorded in the office of the County Recorder of the County of Santa Clara, State of California, in Liber 277 of Official Records, at page 587; and

WHEREAS, AMERICAN SECURITIES COMPANY, a corporation, is now the Trustee under said deed of trust as successor to the Trustee therein named; and

WHEREAS, default has been made in the payment of the promissory note secured by said deed of trust and said AMERICAN TRUST COMPANY caused to be recorded in the office of the County Recorder of said Santa Clara County, on June 19, 1931, in Liber 573 of Official Records, at page 250 thereof, being the County wherein the trust property is situated, a notice of such default and of its election to sell or cause to be sold, said property to satisfy said obligation; and

WHEREAS, said AMERICAN TRUST COMPANY has demanded that said Trustee sell said property to satisfy said obligation;

NOW, THEREFORE pursuant to said demand and in accordance with the power and authority conferred upon it by said deed of trust, said AMERICAN SECURITIES COMPANY, as Trustee, hereby gives notice that on TUESDAY, OCTOBER 27, 1931 at the hour of 10:10 o'clock A.M. of said day, at the steps of the North First Street entrance of the Hall of Records, in San Jose, County of Santa Clara, State of California, it will sell at public auction to the highest bidder for cash in gold coin of the United States of America, all that certain real property situate, lying and being in the County of Santa Clara, State of California, and bounded and described as follows:

PARCEL ONE: The East half of the Southwest quarter (E. ½ of S. W. ¼) of Section 35, in Township 7 South, Range 1 West, Mount Diablo Base and Meridian.

EXCEPTING THEREFROM the following described parcels of land:

(a) - A tract of land conveyed by Benjamin Casey to Daniel Ross by deed dated September 7, 1870, and recorded September 7, 1870, in Liber 19 of Deeds, at page 84, and described as follows, to-wit:

COMMENCING at the southeast corner of the lands of said Benjamin Casey and running thence north on the line dividing the lands of said Benjamin Casey from the lands formerly of Lewis Casey, forty-one and one-fourth (41-¼) rods to a redwood stake; thence west parallel with the southern boundry line of the lands of the said Benjamin Casey fifty (50) rods to a redwood stake; thence south one-fourth (¼) of a rod to a stake; thence west thirty (30) rods to a stone on the western boundry line of the lands of said Benjamin Casey; and thence south forty-one (41) rods to the southwest corner of the lands of said Benjamin Casey; and thence east eighty (80) rods to the point of commencement.

CONTAINING twenty and one-half (20-½) acres, a little more or less, off the southern portion of the east half of the southwest quarter (E. ½ of S. W. ¼) of Section 35, in Township 7 South, Range 1 West, Mount Diablo Base and Meridian.

(b) - A tract of land conveyed by Osborne C. Wells to Daniel Ross by deed dated April 13, 1881, recorded April 13, 1881, in Liber 59 of Deeds, at page 342, and described as follows, to-wit:

COMMENCING twenty (20) feet east of the northwest corner of the land deeded to Daniel Ross by Benjamin Casey on September 7, 1870, and running east twenty (20) rods and eight and one-half (8-½) feet to a redwood stake; thence north forty-four (44) feet to a stake; thence twenty (20) rods and eight and one-half (8-½) feet west to a stake; and thence forty-four (44) feet south to the point of commencement.

CONTAINING a fraction over one-fourth (¼) of an acre.

(c) - A tract of land conveyed by George A. Whipple and Theresa Whipple, his wife, to Frank B. Billings, by deed dated September 15, 1908, and recorded September 23, 1908, in Liber 337 of Deeds, at page 138 and described as follows, to-wit:

COMMENCING in the center of Section 35, and running west on the quarter section line (the same being the south line of land of Frank B. Billings) eighty (80) rods; thence at right angles south twenty (20) rods; thence at right angles east eighty (80) rods to the quarter section line of said section 35; and thence north along said quarter section line twenty (20) rods to the point of commencement.

(d) - A tract of land conveyed by S. N. Hedegard et al to Matteo Cattalano, et al, by deed dated November 30, 1925, and recorded December 12, 1925, in Liber 204 of Official Records, at page 248, and described as follows, to-wit:

COMMENCING at a one inch iron bar at the southeast corner of that certain ten (10) acre tract, conveyed by George A. Whipple to Frank B. Billings of record in Liber 337 of Deeds, at page 138, said point being south three hundred thirty and sixty-five one-hundrdths (330.65) feet from the quarter section corner in the center of Section 35, Township 7 South, Range 1 West, M. D. M.; thence along the southerly line of said ten (10) acre tract north eighty-nine degrees twenty-five minutes west (N.89 degrees 25'W.) four hundred sixty-two and five-tenths (462.5) feet to a one inch iron bar in the center of the Duncan Ditch; thence along the center line of the Duncan Ditch south fourteen degrees forty-nine minutes west (S.14 degrees 49'W.) three hundred sixty-two and two-tenths (362.2) feet to a one inch bar; thence south thirty-three degrees forty-five minutes west (S.33 degrees 45' W.) six hundred twelve and five-tenths (612.5) feet to a one inch bar; thence south fifty-one degrees forty-eight minutes west (S. 51 degrees 48'W.) eighty-four and four-tenths (84.4) feet to a one inch bar in the center line of a roadway twenty (20) feet wide; thence along the center line of said roadway south fifty-four degrees ten minutes east (S.54 degrees 10' E.) three hundred ten and twenty-five one-hundredths (310.25) feet to an iron bar in the center line of a roadway thirty (30) feet wide; thence along the center line of said thirty (30) foot roadway, north thirty-seven degrees twenty minutes east (N.37 degrees 20' E.) six hundred sixteen and five-tenths (616.5) feet; thence north fifty-seven degrees twenty-seven minutes east (N.57 degrees 27' E.) three hundred ninety-eight (398) feet to an iron bar; thence leaving said roadway and running north three hundred eighty-five and seventy-five one-hundredths (385.75) feet to the point of commencement.

CONTAINING ten and six-tenths (10.6) acres and being a part of the southwest quarter of Section 35, in Township 7 South, Range 1 West, M. D. M. Surveyed by McMillan & McMillan, Civil Engineers, San Jose, California, November 26 and 27, 1925.

PARCEL TWO: COMMENCING at the northwest corner of the land deeded to Daniel Ross by Benjamin Casey, September 7, 1870, and running south forty-one (41) rods to the center of the Casey Road; thence east twenty (20) feet; thence north forty-one (41) rods to a redwood stake; thence west (20) feet to the point of commencement.

CONTAINING a fraction over one-fourth (¼) of an acre.

PARCEL THREE: COMMENCING at the northwest corner of lands now or formerly of Daniel Ross (which said land of Ross was purchased from Lewis C. Casey by Deed dated September 27, 1873) and running thence east along the boundry line of said lands of said Ross ten (10) rods, three (3) feet and three (3) inches to a stake; thence north seventy-six (76) rods to a stake; thence west at right angles ten (10) rods, three (3) feet and three (3) inches to a stake in the quarter section line dividing the southwest quarter from the southeast quarter of Section 35, Township 7 South, Range 1 West; and thence south along said division line seventy-six (76) rods to the point of commencement.

CONTAINING four and eighty-four one-hundredths (4.84) acres, more or less.

PARCEL FOUR: COMMENCING at the intersection of the westerly line of the San Jose and Los Gatos Road with the southerly line of lands now or formerly of E. H. Black; running thence along the southerly line of land of Black, north eighty-five degrees thirty minutes west (N. 85 degrees 30' W.) eight and forty one-hundredths (8.40) chains to a fence post, south seventy-seven degrees ten minutes west (S. 77 degrees 10' W.) seven and forty-three one-hundredths (7.43) chains to a fence post marked with an "X"; south eighty degrees forty-five minutes west (S. 80 degrees 45' W.) nine hundred forty-five one-thousandths (0.945) chains; south eighty-five degrees west (S. 85 degrees W.) one and nineteen one-hundredths (1.19) chains; north eighty-five degrees west (N. 85 degrees W.) four hundred eighty-five one thousandths (0.485) chains; north sixty-nine degrees fifteen minutes west (N. 69 degrees 15' W.) seventy-two one-hundredths (0.72) chains; north sixty-one degrees thirty minutes west (N. 61 degrees 30' W.) sixty-two one-hundredths (0.62) chains; north fifty-two degrees west (N. 52 degrees W.) two and fifty-four one-hundredths (2.54) chains to a fence post marked "W" at the southwest corner of said Black's land (six previous angles being marked by a fence post with an "X" thereon); thence south no degrees ten minutes east (S. 0 degrees 10' E.) three and two hundred twenty-five one-thousandths (3.225) chains to a picket marked "W"; thence north eighty-one degrees thirty minutes east (N. 81 degrees 30' E.) six and two one-hundredths (6.02) chains to a stake thirty (30) feet from the south line of Black's land; thence north seventy-seven degrees ten minutes east (N. 77 degrees 10' E.) parallel with Black's south line and thirty (30) feet distant therefrom seven and thirty-eight one-hundredths (7.38) chains to a stake; thence south eighty-five degrees thirty minutes east (S. 85 degrees 30' E.) still parallel with said south line and thirty (30) feet distant therefrom eight and seventy-eight one-hundredths (8.78) chains to the west line of said San Jose and Los Gatos Road at a stake marked "R. M. W."; thence north forty-two degrees thirty minutes west (N. 42 degrees 30' W.) along said road line sixty-seven one-hundredths (0.67) chains to the point of commencement.

CONTAINING one and forty-seven one-hundredths (1.47) acres of land.

EXCEPTING therefrom a tract of land conveyed by George A. Whipple et ux to E. H. Black by deed dated July 9, 1909 and recorded August 29, 1909, in Liber 350 of Deeds, at page 30, and described as follows, to-wit:

COMMENCING at a stake marked "B3" standing at the point of intersection of the quarter section line passing north and south through the center of Section 35, Township 7 South, Range 1 West, M. D. M., with the north line of the property deeded by Lewis C. Casey to William C. McCaughey by deed dated October 26,1891 and recorded in Book 139 of Deeds, at page 620; runing thence north eighty degrees forty-one minutes east (N. 80 degrees 41' E.) five and forty-seven one-hundredths (5.47) chains; thence north seventy-six degrees thirty-two minutes east (N. 76 degrees 32' E.) about three and eighty-eight and one-third one-hundredths (3.88-1-3) chains to a point on the south line of a private road thirty (30) feet distant from the nearest point in the southeasterly line of that certain two and twenty one-hundredths (2.20) acre tract deeded by W. C. McCaughey and Lucretia McCaughey, his wife, to E. H. Black by deed dated September 12, 1896, and recorded in Liber 194 of Deeds, at page 108; thence north fifty-six degrees fifty-five minutes east (N. 56 degrees 55' E.) about one (1) chain to the north line of private road which is also the north line of that certain one and forty-seven one-hundredths (1.47) acres of land described in deed of Lucy S. Brewer, Guardian, to George A. Whipple and Leonard R. Whipple, dated December 20, 1906, and recorded in Book 313 of Deeds, at page 534; thence south seventy-seven degrees ten minutes west (S. 77 degrees 10' W.) to a fence post marked "X"; thence south eighty degrees forty-five minutes west (S. 80 degrees 45' W.) eight hundred forty-five one-thousandths (0.845) chains; south eighty-five degrees west (S. 85 degrees W.) one and nineteen one-hundredths (1.19) chains; north eighty-five degrees west (N. 85 degrees W.) four hundred eighty-five one-thousandths (0.485) chains; north sixty-nine degrees fifteen minutes west (N. 69 degrees 15' W.) seventy-two one-hundredths (0.72) chains; north sixty-one degrees thirty minutes west (N. 61 degrees 30' W.) sixty-two one-hundredths (0.62) chains; north fifty-two degrees west (N. 52 degrees W.) two and fifty-four one-hundredths (2.54) chains to a fence post marked "W" at the southwest corner of land of E. H. Black, said point being also the hereinbefore mentioned center line of Section 35; thence south no degrees ten minutes east (S. 0 degrees 10' E.) three and two hundred fifty-five one-thousandths (3.255) chains to the point of commencement.

CONTAINING ninety-one one-hundredths (0.91) acres of land, more or less, and being the westerly portion of the above mentioned one and forty-seven one-hundredths (1.47) acres of land.

PARCEL FIVE: COMMENCING at a stake marked "B1", from which point a stake marked "B2" standing in the line passing north and south through the center of Section 35, Township 7 South, Range 1 West, M. D. M. and being distant thereon eleven and twenty-three one-hundredths (11.23) chains south from the center of said Section 35, bears south eighty-eight degrees forty-five minutes west (S. 88 degrees 45' W.) seventy-three one-hundredths (0.73) chains; and running from said point of commencement north fifty-six degrees, fifty-five minutes east (N. 56 degrees 55' E.) eleven and one hundred eighty-five one-thousandths (11.185) chains to a sycamore tree marked "B2" standing in the south side of a private road; thence along the south line of said private road south seventy-six degrees thirty-two minutes west (S. 76 degrees 32' W.) about sixty-six (66) feet to a point exactly thirty (30) feet distant from the nearest point in the first mentioned course; thence parallel to said first mentioned course and thirty (30) feet distant therefrom to a point in the south line of land now or formerly of E. H. Black; and thence along said south line north eighty-eight degrees forty-five minutes east (N. 88 degrees 45' E.) to the point of commencement.

CONTAINING one-half (½) acre of land, more or less, and being the southeasterly thirty (30) feet of that certain two and twenty one-hundredths (2.20) acre tract of land conveyed by Wm. C. McCaughey and Lucretia McCaughey, his wife, to E. H. Black, by deed dated September 12, 1896, and recorded in Book 194 of Deeds, at page 108.

TOGETHER with all water, water rights, and rights of way and interest in ditches and pumping plant appurtentant thereto.

TOGETHER with the appurtenances.

CONGREGATIONAL CHURCH

The Autumn group of the Congregational Guild will meet at the home of Mrs. C. W. Sutter on Campbell avenue at 2:30 p.m. Thursday.

The Friendship Circle will meet in the church parlors Wednesday evening at 7:30. An interesting program will be arranged for the coming months. Mrs. Frank Duncan requests old and new members to attend.

The Senior C. E. group will picnic at the Montezuma School this Friday evening at the invitation of Prof. E. A. Rogers. Cars will leave at 5:30 p. m. and 6:30 p. m. Miss Helen Buck is in charge of arrangements.

The Summer group of the Congregational Guild will meet at the Manse Thursday afternoon, Oct. 1, at 2 o'clock. Mrs. R. Y. Maxon and Mrs. L. E. Hendricks are hostesses.

Al Covey returned Wednesday from a trip to Hebron, Neb., where he had gone to get two youths who were wanted for the burglary of a San Jose service station.

Mr. and Mrs. C. H. Whitman and Mr. and Mrs. Benjamin Critchlow were recent visitors with friends in Oakland.

MASTER MARINERS

(Continued from Page 1)

night. The swell was so heavy that it was impossible for them to stay in their bunks, as they were continually rolled out onto the floor of the cabin. Nevertheless they made out the night and the next morning they went in on Tomales Bay, which is about one mile wide and ten miles long. It has at its southern end the little town of Inverness. The boys spent a couple of days sailing on this bay, where they caught 20 fish, and Lloyd Brown took his shotgun up into the hills and bagged two rabbits. Rabbits and fish made a welcome addition to the cuisine.

Wednesday morning they put out for home and sailed back to San Francisco that day. Wednesday night they stayed in San Francisco and Thursday sailed from the City to Alviso in six and one half hours, the fastest time that the Sea Scouts have ever been able to sail back from San Francisco.

During the period of the cruise of six days and five nights the boys spent on the water there was no accident of any kind, no damaging of property, no sickness, and the total cost per boy was $2.50. Every safety precaution was taken throughout the cruise and the boys conducted themselves as Sea Scouts of the highest order. The distance covered was about 300 miles.

MOTOR

at a fraction of the usual cost per mile!

You can in one of our Used Cars. Many of them have been reconditioned. They are good for thousands of miles and are priced at only a fraction of their real worth. The cost spread over all the mileage that is left in them means unusually low cost per mile of motoring pleasure. Cash or convenient terms.

Earn $190 in 81 Months

This is the amount of interest that you will earn without any effort or time if you save with us monthly only $10. At the end of the time you will have $1000 in principal and interest.

It is surprising how small, monthly sums which will never be missed soon accumulate under our new Installment Investment Certificate Plan. While you are steadily adding to your wealth your funds are earning attractive interest all the time.

Ask for our new booklet, "Time-tested Savings," which clearly explains this plan and the three other helpful methods of saving and investment offered at this pioneer association.
